Steps to remap a Medication record when selected for repeating

Selecting to repeat an existing MIMS based Medication (or multiple Medications) that requires mapping to an NZF based Medication (medication displayed in italics) will require you to check and complete the following actions:

1. Select patient Medications to Repeat

Select an existing MIMS based Medication (or multiple Medications) to repeat for a patient that requires mapping to an NZF based Medication. The existing MIMS based Medications that require mapping are those that are displayed in italics in the Patient Medication list.

The checkbox 'Copy prescribing details from old medication' is ticked by default on the Drug Map screen which was opened prior to the Drug Search screen to preserve dosage, frequency, period mitte and classification values in the existing MIMS based patient Medication record.

Important Note – Selection of Medication Strength

Care must be taken if you are selecting a Medication with a different strength. If this occurs default prescribing details/instructions for the Patient Medication will need to be altered appropriately.

3. Save the change in Medication name

Once the selection of the most suitable NZF based medication and strength has been completed click on the OK button to save the change from the MIMS based Medication to the selected NZF based Medication.

This will complete the repeating process for the Patient Medication, and make it available for any further re-prescribing in the Patient's Medication list.

EMPOWERING HEALTH

Important Note – Presentation on the Drug Map screen

The Drug Map screen will be presented for each of the patient Medications selected for repeating that are existing MIMS based Medication records that are yet to be reclassified to the equivalent NZF Medication. The process for mapping a patient Medication must be completed for each of the Medications one by one.

Are you looking for a quick answer to your support query or changes related to this release?

Sara, our Virtual Support Chat Bot is available within our Insight Customer Portal 24 hours a day, 7 days a week, whenever you need help.

All you need to do is type a question, and Sara will provide the answer. She has been trained on most of the questions we get asked regularly on our Support Desk.

If Sara cannot answer your support query, she will assist you in creating a Support Ticket or can pass you onto a member of our Customer Care team.

If you would like to ask Sara your next support query, log into Insight at insight.medtechglobal.com
